Window and door systems

**FINSTRAL**

**U<sub>w</sub> 0.82**  
W/m<sup>2</sup>K

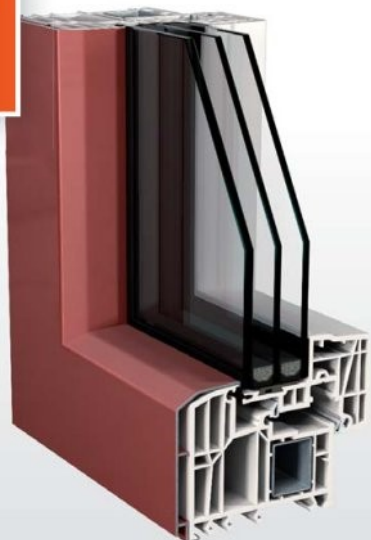

## Top 90 Step-line

### A combination of trusted qualities

- Slender exterior sash frame view for a traditional, elegant look
- Available in PVC and in PVC with exterior aluminium cladding
- Very good thermal insulation through triple insulating glazing and multi-chamber frame and sash profiles
- Triple glazing and thermal insulating glass spacers are standard features
- Very stable sash due to all-around bonding of sash profile with glass pane
- Many choices for colour and surface textures

**U<sub>w</sub> 0.79**  
W/m<sup>2</sup>K

## Top 90 Nova-line

### Clear lines and open views

- Top performing window in terms of thermal insulation, with standard 40 mm triple thermal insulating glazing U<sub>g</sub> 0.6 W/m<sup>2</sup>K
- Contemporary look, with sash hardly visible from the exterior, to highlight large glazed openings (up to 10% larger glass area)
- No problem of different frame views when combined with fixed windows – hardly visible sash helps to create seamless exterior façades
- Very stable sash due to all-around bonding of sash profile with glass pane
- Available in PVC and in PVC with exterior aluminium cladding
- Many choices for colour and surface textures
